WALTER (" CHARLIE") HOPE.

The Editors record with very great regret the death of Walter Hope, known to all his friends as "Charlie", after a very protracted and agonising illness which he bore with tremendous faith and fortitude. For the last few months he was continuously in and out of hospital and the faith and fortitude which he showed were mirrored by Nancy to whom our very deepest sympathy is extended.

Charlie's arrival with the milk, irrespective of weather, on cold dark winter mornings, in rain or in sunshine, was always a pleasant moment. He was invariably bright and cheerful and one wonders how many of us would care to rise habitually at 4.a.m., Sundays included, to do this essential, but cold and tiring job.

In Dorney we shall keep Charlie's memory green and we wish Nancy success in her new post.
